**The King and Queen Rocks** are two of the many isolated masses of rock or stacks which rise out of the sea off the rocky and precipitous coast of Flainborough Head. The cliffs of this headland are well-known nesting-places for gulls and sea-birds, the fowlers securing their eggs by being lowered by ropes over the cliff face—a somewhat risky method of earning a livelihood.

Dear Uncle
I am very sorry but
I find I shall
not be able to come
& see you on Sunday
as arranged.
Perhaps I may be
able to come up
a Thursday evening
Love from Dorothy
